KLove is a station that broadcasts music of love, hope and inspiration. This station is so important locally to me b/c it sends out positive messages. America is filled with negativity and we need everything we have to counter this. America is a powerful nation but quickly losing it's luster. KLove is an integral part of turning this wave around. With the new changes, this station may not be heard in my area and I would be devastated. We need more stationslike KLove to help the suffering and more importantly our children.
